

K6.5 SERIES

6.5" EXTERNAL LOUDSPEAKERS

6.5" Ferrite Full Range Speakers
1" Neodymium High Tone Speakers

K6.5 external loudspeakers and especially designed for outdoors areas.

With IP65 They are ideal for outdoor areas in churches. The housing is made of powder-coated aluminium, is very weather-resistant and therefore perfectly suitable for outdoor applications.

The front grille is provided with a special water barrier so that the system e.g. is ideally suited for use in saltwater locations.

Colors are available according to RAL palette.
