

LDU SERIES

LDU WIRELESS MICROPHONES

Long-range
High sound quality

The modern 96-channel wireless set LDU506HHC works in the "true diversity" system with one wireless microphone with a replaceable dynamic or condenser cartridge. It can be connected to an amplifier with a balanced and asymmetrical microphone input or a line input. High sound quality as well as a very large range of the microphone allow the set to be used in large venues, cathedrals, churches as well as on the stage.
